

Connected Office UC™

The days of business occurring during standard business hours within a physical office are behind us. Consumers expect to interact at their convenience, which means you miss out on opportunities if you can't take business with you.

Connected Office UC™ by Kinetic Business is an award-winning, cloud-based voice and collaboration solution that allows you to conduct business anywhere.

FEATURES:

Hundreds of features including unlimited local and long-distance calling

Runs over the Internet connection of your choice (Kinetic Business or another provider.)

Anytime, anywhere, any device access

Encrypts all calls, messages and meetings

Includes HD video, audio and web conferencing

Real-time presence and company-wide chat

Simple online interface that allows you to manage auto attendants and call routing

BENEFITS:

Make and receive calls, start or join conferences, send messages and collaborate with colleagues from your business phone number – anywhere, anytime

Ensure business continuity by remaining reachable even if your physical office is inaccessible

Save money by combining separate applications from multiple providers, such as chat, faxing, calling and conferencing, into one streamlined solution

Connected Office UC™ combines all your daily communication tools – calling, voicemail, faxing, instant messaging, conferencing and more – into one solution that is accessible from any device and any location.
